

At Euro Spirit, the health and safety of our clients is my top priority. I am implementing innovative strategies that go above and beyond suggested guidelines and recommendations from federal and state guidelines. I am committed to plan the safest way for my business to reopen and serve my clients safely while continuing to provide excellent care.

After monitoring industry, federal and state guidelines, I developed the following steps:

ENHANCED CLEANING AND SANITATION PROTOCOL

- 1) Surfaces are thoroughly cleaned and disinfected, multiple times a day
- 2) Treatment room is cleaned and sanitized thoroughly between each client
- 3) Gloves and masks are worn for all services
- 4) Sanitizing payment equipment between clients

COVID-19 CLIENT GUIDELINES

1) Screening: I will be taking your temperatures to assess for fever, before entering the building. I will have a COVID-19 Informed Consent Form that all clients are required to fill out once they arrive for their scheduled appointments with Euro Spirit.

2) Check-in: To maintain social distancing, I ask clients to stay and wait in the car. I will text or call you when it is the time for you to come inside, as waiting area is closed. Also, I ask that clients are not accompanied by others and have a mask on (for face related services, you will be removing your mask once inside my room).

3) Hand Sanitizer: I will have hand sanitizer at the front desk, treatment room and bathroom. I ask clients to use the sanitizer when they enter and/or as needed.

4) Scheduling: I will schedule appointments to allow for social distancing, minimize the number of people in the building, and to allow sufficient time for thorough surface sanitation.

*I can't wait to see you!
I appreciate all your support during this time!*
